BOARD OF HEALTH ASKS FOR \$100,000.

Money to be Expended in Remodeling the Settlement on Sanitary Lines—A Sanitary Commission.

The Council of State will be asked to appropriate the sum of \$100,000 at once, with which to carry out the present plan of altering and improving Chinatown in conformity with the sanitary program of the Board of Health. This conclusion was reached at a special meeting of the Board yesterday afternoon. President Cooper introduced the subject. As the matter had been informally discussed before, during the day, all minds were made up and the vote to pass was unanimous. By unanimous vote, also, President Cooper was authorized to appoint a commission of three to prepare the details of the plans to be worked upon. This commission was suggested by the Cabinet yesterday.

The life of work will depend almost wholly upon the findings and direction of this commission. Mr. Cooper's idea is to make the extension of Smith, Maunakea and Kekaulike streets an important part of the program, but the commission may think the money can be better spent for sanitary purposes elsewhere and in other directions. It is almost certain that there will be a considerable condemnation of old buildings on account of their unsanitary condition. These will have to be paid for. Driveways through each block will be urged. This will necessitate the destruction of a few buildings and removal of others. Some scheme of getting air and sunlight through the tenements will also be insisted upon. It is in such work as this that most of the money will probably be used.

Some of the money will be turned into excavators, garbage carts and additional live stock for hauling purposes. Dr. Wood again brought up the matter of a filtration plant for valley water. This was discussed two years ago. Plans were prepared but there the matter dropped. Dr. Wood believes the valley water is responsible for fever in the city.

The Board has fitted up the wharf at time kiln point where excavators will in future be discharged upon scows.
